

A close-up photograph of a woman with long brown hair, wearing a white top, smelling a large white orchid with pink accents. Her eyes are closed, and she has a serene expression. The orchid is in sharp focus, while the woman's face is slightly blurred. The background is a soft, out-of-focus green.

Tempotest Home Etamine

Tempotest Home® Etamine is a fine and elegant solution **for home decoration**. It's a light-weight fabric suitable for both internal and external spaces.

It may be used as a door or side curtain for outdoor structures such as pergolas and gazebos; for embellishing leisure spaces with puffs, false ceilings and draperies; or as vertical curtains for windows and balconies with the aim of **increasing visual comfort and privacy**.

Tempotest Home® Etamine is **resistant to mould and salt-water, and keeps its good looks without needing complex maintenance** or frequent washing. It **remains colourful and attractive**, without fading or changing colour even **when exposed to the harmful UV rays from sunlight**, and resists most air-borne pollutants that would damage most other kinds of fabric in a short time.

The **Teflon™ EXTREME by Parà** treatment makes it **water and oil repellent**, allowing water to slide off, dragging the dirt with it. The water repellence together with the fabric construction helps **fast drying** and keeps it light and airy. Tempotest Home® Etamine is a **hypo-allergenic** fabric and it represents an excellent union between elegance and performance... **100% made in Italy**.

WARRANTY

Tempotest Home® Etamine fabrics are guaranteed 8 years. The warranty only covers loss of colour and tenacity, due to the normal exposure to the action of UV rays and weather conditions in general.

TECHNICAL FEATURES

Width (inch) 120"

Weight (oz/sq yard) 4,6 (+/-5%)

Composition

100% solution dyed outdoor acrylic fibre

Colour fastness to artificial weathering

8 Years Warranty

Maintenance and cleaning

Stains on Tempotest Home® fabrics can be removed with a solution of water (not more than 40° C) and neutral soap, brushing and rinsing thoroughly. It is possible to dry wash the fabric or in washing machine at 30° C with liquid detergent. Use low speed spin-dryer. Let dry the fabric at the open air. Do not dry with electrical appliances and do not iron with steam.

Tempotest Home Etamine

Tempotest Home® Etamine es la bella y elegante solución **para la decoración**. Un tejido para el cortinaje, adaptado tanto para ambiente interior como exterior.

Indicado para colocación vertical, de estructura exterior como separador o gasa, para agradables ambientes, tratado para cubrir y decorar o como cortina vertical para las ventanas o balcones con la función de **aumentar el confort visual y la privacidad de cualquier ambiente**.

Protegido contra el moho y la salubridad, Tempotest Home® Etamine **mantiene su belleza sin un necesario y complicado mantenimiento** o frecuentes lavados. **Conserva siempre su mismo color y su brillantez sin decolorarse o variar** también sometido a **los rayos UV y a los agentes atmosféricos** mas duros que perjudican en breve tiempo cualquier otro tipo de tejido.

El tratamiento **Teflon™ EXTREME de PARA'** lo protege **hidro y oleorepelente**, permitiendo así mismo que el agua escurra llevándose eventualmente la suciedad acumulada. La hidrofrepencia, unida a la ligera estructura favorece un **rapido secado** y evita molestias. Tempotest Home® Etamine es un tejido **antialérgico** y constituye una optima unión de elegancia y rendimiento... **100% made in Italy**.

GARANTIA

El tejido Tempotest Home® Etamine esta cubierto por una garantía de 8 años. Tal garantía comprende exclusivamente la pérdida de color debida a la normal exposición a la acción del sol y de los agentes atmosféricos en general.
